

Claralinga

Beginner Workbook

Version 0.6

v0.5 alignment note: This edition is aligned to Core 500 v0.6. Claralinga now uses k as the default /k/ spelling, keeps c only when it makes a word instantly recognizable, uses linga as the official word for language, and treats Core 500 v0.6 as the current public vocabulary authority.

Originality note: Claralinga is an original constructed auxiliary language created by Chad S. Bruce. It intentionally uses familiar international roots shared across modern Indo-European languages and is not a fork, revision, or derivative of another constructed language.

Not just Romance: Claralinga uses Latin and Romance-looking roots when they are already international, but it also considers Germanic, Slavic, Greek, Indo-Iranian, English international, and modern global vocabulary. Beginner clarity wins overall.

Public alignment revision: updated to the Claralinga Consistency Audit standard and aligned with Introduction v0.9 and Core 500 v0.6.

Read. Speak. Pronounce. Write. Understand.

La linga clar pro un grande familia de voses

Workbook purpose

This workbook teaches practical beginner Claralinga using the rules from Claralinga: An Introduction v0.9 and the Core 500 v0.6 starter vocabulary. It is designed for learners who want to read, speak, pronounce, and write the language with confidence.

Created by Chad S. Bruce

A complete beginner course for the clear international auxiliary language Claralinga.
